

Message from Director

Dear all students, parents, teachers & partners all over the world

Welcome to join Thailand International Mathematical Olympiad 2017 Heat Round. This year, we have thousands of participants to join the heat round. This is a fantastic result for all of us to be interested in TIMO for the first year. For those contestants who get Bronze prize or above are qualified to enter TIMO 2018 in February 2018.

To motivate students' learning and to help them to develop own learning strategy for the future, every candidate will have his / her own evaluation report that their results in various topics in mathematics such as Logical Thinking, Arithmetic / Algebra, Number Theory and Combinatorics will be shown. The report will also state statistics such as the mean, median, upper quartile & lower quartile in that contest, so that every candidate knows how they performed in TIMO at that Grade.

We welcome you to participate in the endless opportunities in TIMO Final, joining Mathematics talented children who have been drawn from all over the world to be taught, performed, created, and studied in a place where everyone belongs.

I wish Thailand International Mathematical Olympiad a success!

I look forward to meeting everybody in TIMO Final!

All best,

Andy Lam

Director, Thailand International Mathematical Olympiad
